

REMINDER NO SMOKING AIRSIDE

ASA REF: -	02/20	DATE OF ISSUE: -	06/03/2020	EFFECTIVE DATE: -	06/03/2020
-------------------	-------	-------------------------	------------	--------------------------	------------

This is an important reminder no smoking airside is permitted, other than in the designated smoking shelter, which is situated at the side of the ATC building.

It is apparent that smoking has taken place in airside toilets situated outside the fire station. Smoke alarms have now been fitted which link to the fire service systems.

If you are caught smoking airside in any location other than the designated smoking shelter, this WILL result in 12 points issued and the removal of your POA.

END.
